

HOMESCHOOLING

If a family chooses to homeschool their child, the child needs to be registered at the school only if they attend a class. Some families have chosen to participate in our elective offerings or come for a partial schedule. If a family chooses to interface with the school and have the child attend classes, the following applies:

- students must regularly attend classes in order to receive a grade from the school and
- students must meet the class at its scheduled time.

Other opportunities are available for space-required children. Please contact the school for more information.
