Additional information from the score report:
Name: STUDENT, ID# 123456, Year: 2006, Grade: 11, School Code: 123456, Student Code: 00, Address: 123456
National Merit Scholarship Qualifier (NMQS) Program
Selection Index: 148

Correct answer = plus 1 point

Omitted answer = no points

Wrong answer on multiple-choice question = minus ¼ point

Wrong answer on student-produced response question = No points lost

You answered correctly **29** of **48** critical reading questions and earned **29** points.

11 of **14** easy questions

15 of **23** medium questions

3 of **11** hard questions

You omitted **1** question(s).

You answered incorrectly **18** question(s) and lost **5** point(s).

Additional information from the report: Name: STUDENT, IMA ID, Year: 2008, Grade: 11, School Code: 123456, Student Code: 00, ADD70146P, National Merit Scholarship Corporation (NMSC) Program, Selection Index: 146.

The skills listed are based on your individual performance.

Follow the suggestions noted in “how to improve” and work with your teachers.

Review skills using questions listed.

Improve Your Skills

The skills listed are based on *your individual performance* on the test and represent those that you have the best chance to improve with extra work.

Follow the suggestions to improve in each area.

- **Determining an author's purpose or perspective**
How to improve: Authors write for a variety of purposes, such as to inform, to explain, or to convince. When you read, try to determine why the author wrote what he or she wrote.
See questions 20, 42, 48.
- **Understanding complex sentences**
How to improve: Ask your English teacher to recommend books that are a bit more challenging than those you're used to reading. Practice breaking the sentences down into their component parts to improve your comprehension. Learn how dependent clauses and verb phrases function in sentences.
See questions 5, 33.
- **Understanding sentences that deal with scientific ideas**
How to improve: Read magazine articles about scientific subjects to improve your comfort level in this area.
See questions 8, 36.

Percentile 47
compares your performance with college-bound juniors

Entry Requirements
Below is information you provided on your answer sheet.

High school student:	Yes
Year to complete high school and enroll full time in college:	2011
Years to be spent in grades 9-12:	4
U.S. citizenship:	Yes

The Selection Index (S.I.) is the sum of your critical reading, mathematics, and writing skills scores. NMSC uses the S.I. as an initial screen of over 1.5 million students who enter its scholarship programs (see reverse).

High school students: Get a personalized SAT study plan at www.collegeboard.com/satstart

Check your personal SAT scores online. Do you have your own SAT or ACT score? Check the appropriate box.

Do you have your performance compared to that of students in your state? Do you know how you rank of U.S. students from college in your state? Check the appropriate box.

The Selection Index is the sum of your critical reading, mathematics and writing skills scores.

If it has an asterisk, you do not meet all of the eligibility requirements for the competition.

The Percentile compares your performance to that of other college-bound juniors.

The Entry Requirements section displays information you provided on your answer sheet.

Your Educational Plans

Based on the **college major** you provided on your answer sheet, this section will give you:

- Description of that major
- Skills associated with that major
- Recommended high school courses for that major

Section	Score
Critical Reading	50
Mathematics	52

Your Educational Plans

Grade Average **B**

College Major

Computer Engineering

Information above is self-reported.

Description: In the computer engineering major, students learn to design and develop computer and computer-related systems. These systems include software systems, hardware systems, and combined hardware/software systems. Students take courses in basic sciences, mathematics, and engineering science and design.

Associated Skills:

Computing, basic sciences, mathematics.

Recommended High School Courses: English 4, precollege mathematics 4, biology 1, chemistry 1, physics 1, social studies 3–4, history 2–3, foreign language 2–4, music .5, visual arts .5, and computer science .5–1.

Improve Your Skills
Use these tips to improve your skills in reading and writing.

- Determining an author's purpose or perspective**
How to improve: Authors write for a variety of purposes, such as to inform, to explain, or to persuade. When you read, try to determine why the author wrote what he or she wrote.
See questions 25, 40, 49.
- Understanding complex sentences**
How to improve: Ask your English teacher if recommended books that are a bit more challenging than those you're used to reading. Practice breaking the sentences down into their component parts to improve your comprehension. Learn how dependent clauses and verb phrases function in sentences.
See questions 5, 33.
- Understanding sentences that deal with scientific ideas**
How to improve: Read magazine articles about scientific subjects to improve your content level in this area.
See questions 8, 36.
- Dealing with probability, lines, statistics, charts, and graphs**
How to improve: Practice using problems that involve probability, lines, graphs, and lines. Use the sample problems, charts, and graphs. Look for charts and graphs in magazines and newspapers, and practice interpreting the data in them.
See questions 13, 14, 16.
- Understanding geometry and coordinate geometry**
How to improve: Review geometry with your teacher. Working problems, and, online, coordinate plane, three-dimensional geometry with the Cartesian plane, and the properties of each system of the real.
See questions 7, 11, 12.
- Making connections among mathematical topics**
How to improve: Practice problems that require connecting skills acquired in different math courses, such as problems that use combinations of arithmetic, algebra, and geometry.
See questions 7, 11, 12.
